

Instructions to know a ring measurements

- Before printing go to menu File > Print > Page scalling > None > OK.
- After printing take a rule and check that the orange square at left side measures 3 x 3 cm exactly.
- If the square DOESN'T measures 3 x 3 cm, you printed it wrong. Print the page again and be sure that the PAGE SCALLING is NONE.

Put the ring on the circles, until it fits perfectly with the circle.

In case of doubt use the biggest.

We also present a scale of numbers of rings and the diameter of the ring..

The space to measure is exactly the space inside the ring where it can't miss or invade the ring like you can see on the diagram on the right.

N° 8 15,2 mm	N° 9 15,5 mm	N° 10 15,9 mm	N° 11 16,2 mm	N° 12 16,5 mm	N° 13 16,8 mm
N° 14 17,1 mm	N° 15 17,4 mm	N° 16 17,8 mm	N° 17 18,0 mm	N° 18 18,4 mm	N° 19 18,7 mm
N° 20 19,0 mm	N° 21 19,3 mm	N° 22 19,6 mm	N° 23 20,0 mm	N° 24 20,3 mm	
N° 25 20,6 mm	N° 26 21,0 mm	N° 27 21,3 mm	N° 28 21,6 mm	N° 29 22,0 mm	N° 30 22,3 mm
